Follow directions from Central Station and when you come out of the subway tunnel walk across the open space to the next undercover tunnel and take the escalator on the left up to ground level (top end of George Street). Walk up George street in the direction of the Great Western Highway and you will see a hotel on the left with a taxi sign on the building. You can hail cabs as they come along the road – I've never had to wait more than 5 mins for a cab and the fare to Quarry Street is less than \$10.
